

PlyBirch Interior

Application: furniture production, interior cladding and decoration work, parquet production, flooring, packaging, construction.

PlyBirch Interior is a brand of high-quality birch plywood. For its production we use only birch veneer in all layers to guarantee higher resistance to bending and warpage. It is strong material due to the usage of urea-formaldehyde resin (MR) for veneer gluing.

The plywood has long durability and high performance properties as well as low weight. The material is simple in processing and can be easily cut to size. Alongside with its good physical and mechanical properties, it has beautiful texture of birch wood.

PANEL SIZES

Standard size, mm:	1525x1525	Standard thicknesses, mm:	4, 6; 8; 9; 11; 12; 14; 15; 17; 18; 20; 21; 24; 25; 30
---------------------------	-----------	----------------------------------	--

TOLERANCES

- ✓ **Size tolerance** must not exceed 2 mm.
- ✓ **Slant** must not exceed 2 mm.
- ✓ **Deviation from edges straightness** must not exceed 2 mm.

Experience the quality of PlyBirch Interior!

100% birch veneer

- ✓ Durability
- ✓ Surface hardness
- ✓ Good strength properties
- ✓ Light weight
- ✓ Dimensional stability
- ✓ Easy handling and installing

Urea formaldehyde adhesive: Class 1 (Interior) according to EN 314-2

- ✓ Excellent bonding properties
 - ✓ Formaldehyde emission level complies with the requirements of E1, CARB
-

The product is certified in accordance with the European standard **EN 13986:2004+A1:2015** and has «Certificate of Conformity of Factory Production Control» № **0766-CPR-416/1**.

Reasons to choose Plyterra:

1. Loyal customers in 56 countries
2. High quality of plywood
3. Manufacturing of tailor-made products
4. Access to individual online account for every customer
5. Openness and desire to meet customers' requests
6. Advanced woodworking equipment
7. On-time delivery

If you have special requirements, we can customize our product for you!
